

On **Friday 19th October 2018**, the Science Ambassadors from Our Lady of Fatima and the others schools in the Ogden Trust partnership visited Our Lady of St Kenelm's for a day filled of the awe and wonder that Science brings. They made their own satellites, travelled into space and completed tests in order to see if they could qualify as an astronaut. The Science Ambassadors learnt so much during this exciting day and it helped them to understand more about their roles within school too. They are already looking forward to the next Ambassadors' conference.
