

## Week beginning 11<sup>th</sup> May 2020

Dan and Emily from One Life Music provided us with Weekly Worship and Song at home and at school. Father Jonathan Veasey read to us from St John's Gospel Chapter 14: 'Peace Be With You'. He then talked to us about how Jesus instils peace in us and how we can be guided by inner peace. Dan and Emily offered beautiful linking songs that we were able to join in with. Many of our families are enjoying this weekly worship as it provides focus, reflection and time for prayer.

We shared Bible stories and talked about the messages Jesus shared through scripture. We also painted some scenes from the Bible.

KS1 learnt more about the value of money; they added coins together to make totals to pay for items. They also looked at different sequences of patterns. KS2 investigated number patterns, angles, properties of shapes and problem solving.

In our Science work KS1 learnt about the senses, Years 3 and 4 looked at the digestive system and Years 5 and 6 looked at the function of bones in the skeleton.

On **Wednesday 13<sup>th</sup> May 2020** we honoured Mary, Our Lady of Fatima, with a 'mini May Procession' dedicated to our school Patron Saint.

Despite not being together this year as a whole school family, children who were in school enjoyed leading the Rosary, crowning Mary, placing flowers at her statue and preparing party food fit for a feast day. Our whole school and parish communities were remembered in our prayers.

We made a decoration for our rooms at home which included cutting and fine motor skills. It was fiddly but really good for resilience and perseverance skills.

We really enjoyed team building tasks with Mr Lewis. We were grateful for good weather so that we could be outside on our lovely field.

Cxxx has really been enjoying learning odds/evens and more or less using her 100 square at home. She also enjoys the activities on Doodle too. We miss this smile in school....
