

#PrayTogether

#StrongerTogether

When we are faced with challenging times we must put all our trust in the Lord. He is our Light and our Shepherd and he guides us through the darkness. During the current school closure our school community is apart. We all miss what we considered to be 'normal school life'. The new 'normal' is to stay at home until it is safe for us to reunite again.

These prayers, written by some of our children at home bring comfort to us as we come to terms with the implications and consequences of COVID-19.

Let us remember our school family, parish, community, Key Workers and our brothers and sisters near and far in our daily prayers. Prayer unites the world.

Heavenly Father,

Thank you for protecting everyone in these troubled times of isolation, confinement and rush. Give strength to those who are key workers and are working almost non-stop to care for our world, especially the NHS. Please help me to feel fortunate that I'm not infected but remember those who are in agony every day, suffering horribly. Console those who's relatives or friends have either been infected or passed away due to the COVID-19. Help us to struggle the perplexing moment, especially those who have come into the world recently. Help us to be careful and know what to do and what not to do in a question of life or death. Protect my family and friends from any harm and let us get through this, together.

Amen.

Covid-19

Prayer:

11.04.2020 Isabella

Dear Almighty Father,

Please help the people who have Covid-19. I know this virus has took away our friendship and school but that doesn't mean we can't stop being best friends! Thank you to all the NHS workers out there who are helping all of the patients who have tested positive for Covid-19. If it wouldn't have been all of the NHS workers working out there, we probably wouldn't have survived.

I hope we are all staying safe at home unless you need to work and need to buy important things, because this virus has started to happen, I hope we are all at home, so that this virus doesn't spread any further. I am grateful to my parents, siblings and to all my friends since they are entertaining me also. I also thank God for giving me a life that has been filled with happiness and sometimes sadness. I hope this virus stops.

This virus has caused a lot of people and I don't want that to happen to my friends especially my BFF's (I care a lot about them!) Make sure to stay safe at home to protect the NHS so that we can save some people's lives to fight this virus, together! I pray and pray and pray that this virus will soon come to an end.

Amen.

COVID-19

Prayer

11/4/20

Elead Tekie

Dear Heavenly Father,

The coronavirus is an issue that many of us have not experienced within our lifetime and is something we hope to not encounter again in the future. Regardless, we need to carry on and withstand whatever it throws at us. We need to all stay strong, safe and as a community - even if that means and results in isolation.

I pray that the most vulnerable of society do not lose their lives and carry on to lead happiness and joy throughout the future. Even if they are not vulnerable, I pray that every single person stays well because even if they have confidence that they will not fall ill, this virus is utterly remorseless and will do its best to harm anyone that stands in its way.

And finally, I want to give my biggest thanks to the NHS and keyworkers that have enabled life to run as normally as possible and to allow the people that have caught this merciless disease to breathe and stay alive. Many, bus drivers, train drivers, NHS workers have sadly died because they are sacrificing their safety to help us. Please help us God.

Amen.
